

**UKCA marking of HPL according to EN 438-7 and Decorative Wall panels according to EN 15102 in the course of Brexit**

Dresden, 11/09/2024

Dear customers,

The United Kingdom (UK) left the European Union (EU) on 01/01/2021.

Prior to this, a trade agreement was signed between the United Kingdom and the European Union on 24/12/2020.

With the withdrawal, the following requirements for the marking of construction products for export in the UK incl. Northern Ireland (NI) come into force:

For construction products, the UKCA marking is now legally binding. This marking is necessary to sell your products on the UK market. The previously set transitional period until 30/06/2025 was revoked on 02/09/2024 (<https://www.gov.uk/guidance/construction-products-regulation-in-great-britain>). Thus it is possible to continue to CE mark existing products based on the harmonized standards EN 438-7/EN 15102 (<https://www.gov.uk/guidance/using-the-ukca-marking>).

The basis for the UKCA marking are so-called "Designated Standards", which have the same legal basis as the harmonized standards. Currently, the "Designated Standards" and the harmonized standards are identical, but this may change in the future.

Currently CE marked products will continue to be accepted in Northern Ireland (see annex).

The conformity assessment for the UKCA mark is carried out by "UK Approved Bodies", which issue corresponding certificates.

EPH as an European Notified Body cooperates in the field of HPL according to EN 438-7 (system 1) and Decorative Wall panels according to EN 15102 (system 1) with the UK Approved Body BTTG. This body is willing to provide UKCA certification on a cost basis after reviewing English documents by EPH (CE-surveillance reports, Certificate of constancy of performance, UK-reports).

The following steps are necessary:

- The producer has to make a contract with BTTG on UKCA certification and is obliged to inform EPH about that. Please contact at BTTG Mrs. Sarah Stone: Sarah.Stone@shirley.ie
- EPH provides the mentioned documents directly to BTTG and will answer BTTG's questions regarding these documents correctly.
- BTTG will carry out the UKCA certification.

Don't hesitate to contact us for further questions.

With kind regards

Dr.-Ing. Rico Emmeler  
Head of the Notified Body

**Annex: Overview about possibilities of placing goods**

Action	Type of good (see list of product areas below)	Accepted marking or combination of markings*
Placing goods on the market in Northern Ireland	Manufactured goods being placed on the market in NI using an EU conformity assessment body	CE
	Manufactured goods being placed on the market in NI using a UK-based body	CE and UKNI
Placing goods on the market in Great Britain	Manufactured goods being placed on the GB market until 30/06/2025	UKCA or CE
	Manufactured goods placed on the GB market from 01/07/2025	UKCA
Placing qualifying Northern Ireland goods on the market in Great Britain (unfettered access)	Qualifying Northern Ireland goods being placed on the GB market under unfettered access	CE or CE and UKNI
Placing goods on the EU market	Manufactured goods being placed on the EU market	CE

\* You may use combinations of the product markings listed in each box. Your goods may be acceptable with more than one marking. For example, a product with both the CE and UKCA markings can be placed on the EU market. However, for the EU market the CE mark must appear without the UKNI indication as goods bearing the 'CE and UKNI' marking are not acceptable in the EU market. This means these goods must be manufactured according to EU rules and cannot be assessed by a body based in the UK.
